Numb. 6705.

The Daily Courant.

Friday, April 19. 1723.

To the King's most Excellent Majesty.

The humble Address of the Provost, Bailies, Dean of Gild, Town Council, and Conveener of the Burgh of Dundee.

Most Gracious Sovereign,

WE your Majesty's most dutiful and loyal subjects, with all Humility, do beg Leave to approach the Throne with the most sincere Professions of our utmost Abhorrence of the traiterous and execrable Conspiracy against your Majesty's sacred Person and Government.

Permit us, Great Sir, to adore the kind Providence of Almighty God, which has appeared in so conspicuous a Manner in the happy and seasonable Accession of your Majesty to the Throne of these Kingdoms, to the Support and Defence of your Majesty's Government against all the Attempts of your Enemies; and that now, when their Expectations again began to be big, has made a Discovery of the most wicked and villanous Designs, which had they succeeded, must have had horrid and tragical Effects beyond all Expression.

These signal Appearances of God in behalf of our rightful King, cannot but force an Acknowledgement of a Providence from them who deny it, as they can not but raise the Admiration, and excite the Thankfulness of all who believe it.

We cannot sufficiently express the Indignation and Horror that fills our Minds when we behold the Impiety and restless Malice of your Enemies, abandoned and unnatural Men! who in spite of Clemency itself, would compass the Murder of the best of Princes, would make these Lands a Scene of Blood, and subject without Reserve all that is dear to us, whether as Men or as Christians, into the Hands of a Popish Pretender, who, as he has been educated in the Maxims of Popish Bigotry and Tyranny, could not but breathe Ruin to our Holy Religion as well as our Civil Liberties.

As we are bound in Duty to God, to acknowledge your just Title to the Throne of these Realms, and as we are sensible of the many Blessings of your Reign, particularly the maintaining to us the Doctrine, Worship, Discipline and Government of the Church of Scotland established by Law, so we chearfully take Occasion at this Juncture to assure your Majesty, that to the utmost of our Power, we will defend and maintain your Majesty's sacred Person and Government, and your undoubted Title to the Imperial Crown of these Realms, against the Pretender and all his Abettors whatsoever.

That the Great God, by whom Kings Reign, may preserve and bless your Majesty's sacred Person, their Royal Highnesses the Prince and Princess of Wales, and their Royal Progeny; that your Majesty's Reign may be Long and every way Prosperous over us; and that the great Blessings we enjoy under your Majesty's auspicious Reign may be transmitted to the latest Posterity, shall be the fervent Prayers of

May it please your Majesty,

Your Majesty's most dutiful and loyal Subjects and Servants.

Hamburgh, April 9. Letters from Dantzick say, that the Duke of Mecklenburg has received an Express from Petersburg, to notify to him the Czar's Arrival there. These Despatches went on to Berlin, and 'tis rumoured as if there was some likelihood of a Conference to be had between his Russian Majesty and the Czar on the Frontiers of Courland. Notwithstanding the Movements of the Muscovite Troops in Livonia, and all the Czar's Land and Sea Preparations, 'tis believed he has no other Design at present than to give Umbrage to some Neighbouring Potentates, and to keep his Forces ready for Action in case any seasonable Opportunity falls out. The Copenhagen Letters that came in To-Day mention little besides the great Joy and Festivity shewn there on Occasion of the Birth of the young Prince; Prince Charles and Princess Sophia Hedwig came the 3d Instant from Wemeltorf to Charlottenbourg, to pay their Compliments to the Princess Royal, who continues very well in Health, as does likewise her Son the new-born Prince. The King of Denmark has given Order to fit out two Frigates to cruise in the Baltick off the Coasts and Roads of Dantzick and of Courland, to observe the Motions of the Muscovite Ships.

Brussels, April 7. Several Military Vacancies have been lately filled up, and some Regiments have been incorporated into others. The late Prince of Holstein Norbourg's Regiment of Dragoons is given to the Count de Milan; the Government of Ghent to the Marquess de los Rios; that of Charleroy to the Marquess de Bournonville, and the Regiments of Foot that were commanded by those Marquesses before they were made Governours, are incorporated among others, in order to compleat them according to the German Establishment. It is said that the Count de Mal. degheu's Regiment is likewise to be incorporated, but 'tis hardly supposed that will be done till some Government becomes vacant, and is given to him for an Equivalent. Major General Montesa set out from hence the 5th Instant, having taken the Oaths of Fidelity to the Emperour as the Heads of the Marquess de Prie, in Quality of Governour of the City and Country of Tournay, being nominated thereto by the States General, in the Room of M. Taets van Amerongen, who is made Deputy Governour of Maestricht, in the Place of the late General de Villars. The Directors of the Ostend India Company having been absent during the Easter Holidays, are returned hither, and met this Morning at the Marquess de Prie's House pursuant to his Summons. The City was in an Alarm last Night by a terrible Fire which broke out at a Brewhouse near the Anderlecht Gate, and burnt down all the Outhouses, with several Horses, but through the great Care that was taken, the Fire spread no farther than that Place.

Hague, April 10. The Courier whom the States sent last to Copenhagen is not yet returned from thence; but M. Goes, their Ehgh Mightinesses Minister at that Court, has had Audience of the King of Denmark on the subject Matter of those last Dispatches, and his Majesty seems to be well satisfied therewith, having caused them to be laid before his Ministers for their Deliberation and Joint Conference with M. Goes. The Courier is hourly expected back; mean while the States of Holland continue assembled, waiting the Result of the said Conference, and the Dutch Merchant Ships avoid putting to Sea till this Affair is accommodated. The Squadron that is intended to be sent against the Algerines not being likely to be so soon fitted

out

out as it could be wished, the three Convoy Ships which usually go yearly from Amsterdam to the Mediterranean, are preparing to sail with the Merchant Ships, without staying for the Squadron.

Specifick Drops for DEAFNESS.

Which intirely cure that Misfortune so as not to return again, after all other Means have been used without Success; as also all Thickness of Hearing, Pain and Noise in the Ears, &c. The wonderful Effects of these laudable DROPS are truly surprizing, for they remedy all Defects of the Hearing Faculty, tho' of many Years standing, almost in an Instant, causing those to hear exceeding quick and well, who before were in a manner totally Deaf. Hundreds who were so very bad as not able to hear a Drum when beat close by them, and therefore despair'd of being ever relieved, have been quickly and perfectly cured by them to their great Joy and Admiration. They also effectually remove all Pain occasioned by Cold, comfort and strengthen the Tympanum or Drum of the Ear, free the Auditory Nerve from Obstruction, and rectify all Disorders so absolutely, and in so short a Space of Time, that one would scarcely think it possible, did not the largest Experience evince the Truth of it. In a Word, Nothing in Nature can come near them for the certain and almost immediate Cure of DEAFNESS, proceeding from what Cause soever; but the great Esteem and Reputation they have justly gained for many Years past, have occasioned, as usual in such Cases, many Counterfeits to come abroad, beware therefore of such Impositions, these excellent and only true Specifick DROPS being to be had only, by the Author's Appointment, of the Gentlewoman at the Two Blue Posts in Hatton-Yard in the Minories, at 5 s. 6 d. a Bottle, with Directions, and no where else in England.
